

Level: Adaptable for all ages.

Curriculum Links:

Key Stage 1 and 2: Art and Design, English, and Languages.

Key Stage 3 and 4: Art and Design, English, Languages, and Citizenship.

Japan days are packed with fun and cross-curricular activities designed to offer one of the most comprehensive Japanese culture experiences for schools available today. Students will taste, listen, observe, and get hands on in a series of activities such as origami, writing their own manga comic, listening to a traditional Japanese story and music, participating in a traditional tea ceremony, and even having lunch in a Japanese restaurant.

Japan Days experiences can be taken place in the museum and/or at your school. Morning sessions can include 2 to 4 hands-on workshops (depending on the group number). Afternoon sessions include a tea ceremony demonstration, tea tasting, and storytelling. Depending on the budget, you can also book a Japanese lunch at a local restaurant.

Our hands-on workshops options as below:

- origami
- samurai hats
- Japanese sunshine dolls
- create your own Manga story board
- create Kimono fabric designs

Self-guided Learning Experience:

You can complement this learning experience by borrowing our Japanese art loan boxes FREE of charge (deposit required). You can enjoy these resources for two weeks. These boxes include a teacher's booklet with background information, object explanations, a scheme of work designed to support your lesson planning and photocopiable activities.

Booking information:

Japan Days fees depend on the overall design of the activities: number of students, facilitators involved etc. Please feel free to call our Education Manager to discuss different options and tailor make your own Japan Day.
